Filip Stojanov

Software Developer | Visual Designer

Skopje, North Macedonia stojanov.f@gmail.com +389 77 681 656

Profile

Friendly, adaptable, and communicative person who enjoys working with others to achieve common goals. Experienced in contributing to impactful projects and improving processes with a focus on user experience and efficiency. Dynamic, collaborative, and eager to continuously learn, grow, and take on new challenges.

Employment History

Mar 2023 — Present
Skopje

UI & Frontend Developer at Seveniteen

At Seveniteen, I design and develop scalable, high-performance web applications with a focus on responsive, user-friendly interfaces. My work spans from building modular SPAs with React.js and TypeScript to integrating REST APIs and ensuring smooth collaboration through Git and Azure DevOps. I've contributed to multiple projects, including internal dashboards, data visualization tools, and mobile-friendly applications.

Jan 2023 — Mar 2023
Skopje

Software Developer Intern at Seveniteen

Completed a 3-month internship focused on learning React development and modern front-end practices. During this period, I gained hands-on experience with the React workspace,
TypeScript, and project workflows while contributing to real-world applications.

May 2021 — Present
Skopje

Front-end Developer – Freelance

Developed scalable web applications with React, TypeScript, and modern CSS frameworks. Experienced in component-based architecture, REST API integration, and collaborating on UI/UX design.

Jun 2012 – Aug 2025
Skopje

Graphic designer – Freelance

For over 12 years, I've worked on a wide range of design projects — from brand identity and logo creation to print and digital materials, packaging, and website design. Skilled in Illustrator, Photoshop, and InDesign, I've developed brandbooks, magazines, product labels, promotional content, and social media visuals. I also collaborated long-term with Australian companies, handling custom print and engraving designs, preparing production-ready files, and communicating directly with clients for revisions and approvals. Experienced in managing projects from concept to delivery, ensuring quality and on-time execution.

Education

Oct 2021 — Oct 2024

European University Skopje

Technical Skills

Frontend Development
React, JavaScript, TypeScript, HTML5, CSS3 (SCSS, Bootstrap, Tailwind), Responsive Design, SPAs, Component-Based Architecture, RESTful API Implementation

BSc in Computer Engineering

Personal projects

Dashboard Application for Internal Operations (In progress)

Developing an internal management dashboard for project tracking and business analytics.
Features include freelancer data management (past and upcoming), project oversight, global revenue tracking, and revenue breakdowns by customer.
Built with React & TypeScript, focusing on data visualization, role-based access, and scalability.

Building Management Dashboard (In progress)

Developing a multi-role dashboard application for residential building management.
Supports different user levels (building manager, apartment owners, and guests), each with tailored access to relevant data and features.
Emphasis on role-based permissions, clean UX, and responsive design.

Peak2Port – Modern Responsive Website

Developed a modern, responsive website for **Peak2Port**, a Slovenian cycling service company.
The platform showcases cycling routes, accommodations, local guiding services, mechanical support, follow vehicles, and other cyclist-focused offerings.
Built with a strong focus on performance, accessibility, and intuitive navigation for international cycling enthusiasts.

Translation Agency Website

Developed a modern, responsive website from UI design to full implementation for a translation agency.
The platform presents the agency's services and professional experience, with seamless integration of modern translation tools and workflows.
Focused on clean UI/UX, accessibility, and performance across devices.

Certifications & additional experience

React - The Complete Guide 2025 (incl. Next.js, Redux) – Udemy, Maximilian Schwarzmüller

Angular - The Complete Guide – Udemy, Maximilian Schwarzmüller

Ongoing learning in React, TypeScript, Node.js, Next.js, CI/CD, and full-stack development through Udemy and online resources

Freelance UI/UX Designer (2014 – 2023) – Designed interactive wireframes and prototypes using Figma

Microsoft Power BI Data Analyst – Semos Education (2023)

user research, and wireframing, to visual design, prototyping, frontend coding, testing, and deployment. Strong focus on maintainable architecture, cross-functional collaboration, and continuous improvement.
